

## Halloran Consulting Group Appoints Industry Veterans in Quality Systems and Training Practice Areas

Boston, MA – November 18, 2008 – Halloran Consulting Group, Inc. (Halloran), a firm that specializes in clinical development services for emerging and established life sciences companies, today announced the appointments of Laura Araujo, as Senior Director of Quality Management, and Tina Forrister, as Senior Associate for Training and Development.

“Cost-effective quality and education programs continue to be a priority for any size company that is developing new drugs,” said Laurie Halloran, President and CEO of Halloran Consulting Group. “We are thrilled to have Laura and Tina on board, as they are integral to the expansion of our practice areas and bring valuable knowledge and expertise to our firm and to our clients.”

Laura Araujo brings over 20 years of experience in quality assurance, technology management and software development in the biopharmaceutical industries. At Halloran, she will focus her efforts on providing clients with quality management system implementation, software development and validation, and training services. Prior to joining Halloran Consulting, Ms. Araujo was Vice President of Quality at Perceptive Informatics, the leader in clinical trial business applications and services, and before that she was Vice President, Quality, IT and Customer Support at Clinsoft (formerly Domain Pharma).

### **About Halloran Consulting Group, Inc.**
